

Posters for the PSB Student Day

1. **ALI Salyha (ILL):** "X-ray and neutron crystallographic studies on pectate lyase"
2. **CHABROL Eric (IBS):** Mutations in Langerin carbohydrate domain affect Birbeck granule structure and its function by two different types of destabilisation.
3. **DELVECCHIO Manuela (EMBL):** "Mechanisms of regulation of the CBP/p300 acetyltransferase"
4. **DESFOSES Ambroise (UVHCI):** "New insights into the structure of measles virus nucleocapsid"
5. **DESRAVINES Danielle (EMBL):** "Structural and functional approaches towards new inhibitors of HDAC7"
6. **GILLESPIE Shona (ILL):** "Neutron diffraction studies of the pH effects upon the structure of thaumatin"
7. **GIORDANO Rita (ESRF):** "Toward multi-samples data collection for macromolecular crystals: frozen crystals non-isomorphism"
8. **FARO Aline (IBS):** "Photo-switching mechanism of Enhanced Yellow Fluorescence Protein"
9. **IVAN Ivanov (UVHCI):** "Structure assembly and dynamics of RNS viral replication complex"
10. **LEYRAT Cédric (UVHCI):** "Experimental and computational studies of rabies and vesicular stomatitis virus nucleoprotein-phosphoprotein interactions"
11. **MARINONI Elodie (IBS):** "Study of S-Adenosyl-L-methionine radical proteins involved in protein active site maturation"
12. **MARTINEZ Nicolas (UVHCI):** "Structural characterization of a chaperone-client protein complex: Fha30-par27"
13. **MATHIOUDAKIS Nikolaos (EMBL):** "Structural and functional insights into Tdrd1: novel players in the piRNA pathway"
14. **NIE Yan (EMBL):** "Structural Molecular Biology of Human TFIID Complexes"
15. **PANWAR Pankaj (IBS):** "Structural and functional studies on ADP/ATP Carrier".
16. **SELE Céleste (UVHCI):** "Structural and biochemical study of the A20R, D4R and E9L proteins of the Vaccinia Virus"
17. **TALON Romain (IBS):** "Lanthanoid complexes as new tools for X-ray structure determination of biological macromolecules: application to large protein complexes and membrane proteins."
18. **VIOLA Cristina (EMBL):** "Structural and functional characterization of TAF2: A subunit of the general transcription factor TFIID."
19. **Xiol Jordi (EMBL):** "MOV10-like is an essential piRNA biogenesis factor"
20. **CONNELL Bridgette (IBS):** "Structural Basis of the gp120 - mCD4-HS Interaction and improvement of this molecule as an HIV-1 entry inhibitor"
21. **SEVAJOL Marion (IBS):** "Structural and biochemical study of ELMO"
