

**PSB Science Advisory Board review meeting**  
**18<sup>th</sup> June 2009, Grenoble**  
**CIBB Seminar Room**  
**Agenda**

**18<sup>th</sup> June 2009**

- 0800            Transportation of SAB members from hotel to site entrance  
0830-0845    Welcome and Introduction (Laurence Serre)

**PSB Science and platform highlights**  
**(Chair: Trevor Forsyth)**

- 0845-0905    Saving the world from pandemic influenza thanks to the PSB multi-disciplinary platforms (Stephen Cusack)  
0905-0925    Structural biology of ESCRTs (Winfried Weissenhorn)  
0925-0945    Dynamics inside living cells (Marion Jasnin)  
0945-1005    NMR studies of conformational dynamics in intrinsically disordered proteins: towards an understanding of functionally important plasticity (Martin Blackledge)

**PSB development and the future**  
**(Chair: Janet Smith)**

- 1005-1025    The SAS platform: SAXS, SANS, and deuterium labelling for biological solution studies (Sean McSweeney)
- 1025-1100    **Coffee**
- 1100-1120    PSB: The future for integrated structural biology in Grenoble (Eva Pebay-Peyroula)
- 1120-1230    Discussion with SAB members
- 1230-1330    **Lunch for SAB members in Salle d'Hotes**
- 1330-1500    SAB closed session (CIBB seminar room)
- 1500            Feedback from SAB to Science Board representatives (CIBB Seminar Room)
- 1530            **Refreshments and Close**
