THE PARTNERSHIP FOR STRUCTURAL BIOLOGY

PSB STUDENT DAY

Monday 17 February 2019, 10:30 – 16:35
Chadwick amphitheatre

10:30 *Introduction*
by **Florent Bernaudat (PSB)**

10:40 **Clip session part 1**

11:00 «*What more can we get from lysozyme?*»
by **Joao Ramos (ILL)**

11:20 **Clip session part 2**

11:40 «*Studying intrinsically disordered proteins by integrating NMR and single molecule fluorescence*»
by **Sigrid Milles (IBS)** **Invited speaker**

12:20-14:00 **Lunch break** and **POSTER SESSION**
Free lunch in the Chadwick entrance hall

14:00 «*High pressure freezing of membrane protein crystals with noble gases*»
by **Maksim Rulev (ESRF)**

14:20 «*Doing a Masters in Technology and Innovation following the PhD*»
by **Benjamin Brocco (Former ILL PhD student)** **Invited speaker**

14:45 «*Elucidating the inhibition of amyloid fibril formation by co-chaperonin prefoldin*»
by **Ricarda Törner (IBS)**

15:05-15:30 **Coffee break**
Poster session part 2

15:30 «*Presentation of GIANT*»
by **Hermine Vincent (GIANT)**

15:40 «*Presentation of GlobAlp*»
by **Samy Dufour (IBS)**

15:50 «*Structural studies on the Integrator complex*»
by **Moritz Pfleiderer (EMBL)**

16:10 Round table discussion
by **Everyone**

16:30 **Best poster / clip prize award**

16:35 **Refreshments**

Organized by the PSB Student Committee:
Michael Adams (EMBL), Wiktor Adamski (IBS), Nina Christou (IBS), Hadrien Depernet (ESRF), Lukas Gajdos (ILL), Florent Bernaudat (PSB scientific coordinator)
