

09:30 – 9:35

Welcome

09:35 – 10:10

Patrick England (Institut Pasteur, Paris)

Biophysical characterization of macromolecules and their interactions at Institut Pasteur-Paris: the importance of upstream quality control to ensure the success of downstream applications

10:10 – 10:30

Dimitrios Skoufias (Institut de Biologie Structurale, Grenoble)

Bimolecular Fluorescence Complementation (BiFC)

10:30 – 10:50

Sigrid Milles (Institut de Biologie Structurale, Grenoble)

Single molecule fluorescence for structural biology and protein dynamics

10:50 – 11:10

Sylvain Prevost (Institut Laue-Langevin, Grenoble)

Small Angle Neutrons Scattering (SANS)

11:10 – 11:22

Diego Pontoni (European Synchrotron Radiation Facility, Grenoble)

Presentation of the Partnership for Soft and Condensed Matter (PSCM) platforms

11:22 – 11:34

Jean-Baptiste Reiser (Institut de Biologie Structurale, Grenoble)

Presentation of the Partnership for Structural Biology (PSB) Joint Biophysics platform

11:34 – 11:45

Questions and final remarks
